

THE SUNPOWER® 25-YEAR COMBINED WARRANTY

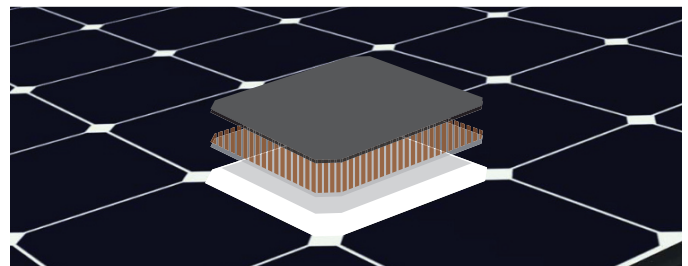

THE SUNPOWER DIFFERENCE

Since 1985, it's been the SunPower mission to provide the most reliable and efficient solar systems available. With more than 7 million panels powering the globe, SunPower has proven the durability and reliability of its panels. We credit our success to the unique design of our patented SunPower® Maxeon® solar cell technology and our network of more than 2,000 expert partners whose top priority is keeping our customers powered. By offering the industry's first combined power and product warranty, we are underlining our continuing commitment to deliver the best solar experience in the market.

THE DESIGN DIFFERENCE

SunPower® Maxeon® Solar Cell Technology

The design of SunPower Maxeon solar cells is unique because each cell is built on a solid copper foundation — providing the strength and durability to survive conditions that panels are subjected to year after year.

SUNPOWER® MAXEON® SOLAR CELL TECHNOLOGY

Non SunPower cells use a low-cost metal paste on the front and back-sides to conduct the power generated by the cell. SunPower Maxeon cells are built on a solid copper foundation. Our unique design handles the additional power each cell generates, and makes it practically immune to the cracking and corrosion that causes standard solar cells to steadily lose power over time or fail completely.

THE SUNPOWER WARRANTY

25 Years of Coverage Without Inconvenience

SunPower is proud to offer a warranty as efficient and dependable as our technology. In the unlikely event you have an under-performing panel, SunPower will repair or replace and reinstall it. With SunPower it's as simple as a phone call.

COVERAGE	SUNPOWER PANELS	OTHER PANELS
Covers removal of bad panel?	✓	No
Covers shipping?	✓	No
Covers flash testing?	✓	No
Covers new panel installation?	✓	No
Product Warranty Term	25 years	10 years

THE SUNPOWER® 25-YEAR COMBINED WARRANTY

SUNPOWER SIMPLICITY

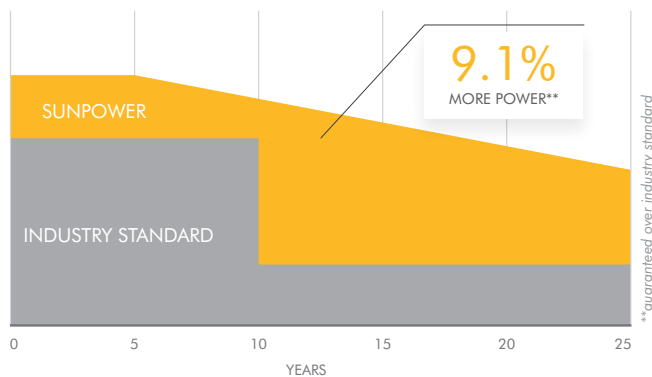

By combining power and product coverage in one warranty, we've eliminated concern about the difference between manufacturing defects and power output. We give you one combined warranty, with no fine print. If an issue ever arises with your solar solution, simply contact SunPower. Whether you work with a dealer or contact SunPower directly, we will go above and beyond to restore your system as quickly as possible.

- With over 7 million panels installed, less than 180 have not met our performance standards*
- Our global network of more than 2,000 highly trained partners are available to serve you
- Our long-term financial stability ensures we will be there for you for many years to come

YOU'RE COVERED

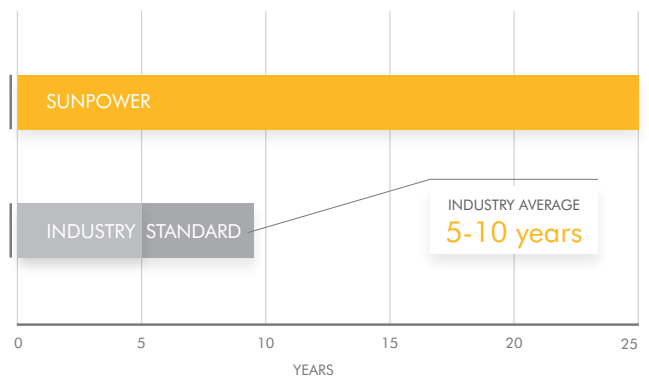

Our 25 year combined warranty leads the industry in overall coverage with guarantees of high performance and repair of under-performing panels.

Performance Guarantee

- More lifetime energy: 9.1% above the industry standard
- Minimum Peak Power: at least 95% for the first five years
- Less than 0.4% annual degradation for the following 20 years

Product Warranty

- The solar industry's first 25 year product and power coverage
- Complete coverage of warranty replacement costs
- Financial stability and product reliability to back our commitment

Being backed by SunPower gives you the peace of mind to know that your system is built with SunPower Maxeon solar cells and durable materials designed to withstand harsh conditions for decades. The SunPower Combined Warranty represents our pledge to you that our panels are the best you can buy.

*all post-system-commissioning returns worldwide for panels built with Gen 2 Maxeon cells.
