

SunPower® Complete Confidence

A better warranty starts with a better product.

25 years

- Panels
- Microinverters
- Racking
- Power production

10 years

- Monitoring hardware

*Smartphone and laptop not included.

Every part of your SunPower Equinox™ system is meticulously designed to work perfectly together, and rigorously tested for long-term reliability. That's why the **SunPower® Complete Confidence Warranty** is the only warranty to cover your whole system (not just the panels).

Complete System

SunPower stands behind your entire system—including power production. That way you never have to wonder which company you can depend on.

One company

- The only company that stands behind your entire system.

Easy process

- No need for receipts, proof of purchase or written claims.

Most comprehensive coverage

- 25 years—system on your roof.
- 10 years—monitoring technology.

Highest 25-year production warranty

- At a record-breaking 0.25% degradation rate, your SunPower® system will continue to produce more energy than any other system on the market.

Complete Service

If you experience issues with your system within 25 years of purchase, SunPower will happily replace, fix, or reimburse you—hassle free.

Easy to reach

- Our national network means a SunPower-certified installer is right in your neighborhood. And as a US-based company, we're always just a call away at 1-800-SUNPOWER.

Provides 100% of repair or replacement costs

- Labor, shipping, parts—we take care of everything.

Conventional System

Each part is made and warranted by a different manufacturer.

SunPower System

One company backs everything.

*Smartphone and laptop not included.

Pitfalls of conventional solar warranties:

- You pay to ship new panels
- You pay to package and ship defective panels
- You must present original physical proof of purchase
- You must make claims in writing
- You have a short time frame to make a claim
- You pay the manufacturer a testing fee if they don't find a defect
